## Programme

Over the last two years the Roma Routes pilot project drew together organizations from across Europe to establish a coordinated itinerary of events celebrating Roma culture and heritage. See [www.romaroutes.eu](http://www.romaroutes.eu).

Inspired by the Route of Roma Culture and Heritage proposed by the Council of Europe, this project aimed at increasing the knowledge of people in Europe about Roma history, culture, values and lifestyle. It intended to encourage the contribution of Roma to Europe's cultural life and diversity and ultimately to contribute to giving a positive value to an image of Roma who are, more often than not, perceived in a negative and stereotyped way.

We have made links between culture and heritage institutions and Roma groups across Europe, spreading ideas, exchanging experiences, and coordinating the website and programme of events.

The aim of the final conference in Heidelberg is to review the achievements of the project and to look to the future. We hope to increase links with people, groups and organizations active in this field and to further the realization of a Route of Roma Culture and Heritage.

The music of this Duo is marked by the way they influence each other. Snétberger's technique on the strings is phenomenal. Stockhausen looks for the unusual on his instruments. So the musicians came to an artistic consensus that is pure magic for the audience.
